

The Feasts (Lev.23) represent the steps the Lord took to deliver Israel from bondage to the Promised Land flowing with milk and honey. The Feasts are NOT steps the Lord will take to save Christians and snatch them up to heaven, but they prophesy the future steps the Lord will take to deliver Israel into a glorious Land, Is.51:3. The Feasts also represent the stages, the steps the Lord will take to restore all that was lost on the earth in Genesis including Paradise. Paradise is not heaven, it was on the former earth and will be on the new earth. Through the steps of the Feasts the enemy, sin and death will be removed and the restoration of things that were lost will be found on the new earth.

The Feasts reveal the earthly purposes made possible by redemption His blood, not the heavenly ones purpose made possible by redemption through His blood.
